

THE
LITTLE FRENCH BAKERY

CREME FRAICHE

2 cups Heavy Cream
2 T Buttermilk

Mix together, and allow to set uncovered at room temperature overnight (or about 8-12 hours). You can use it right away or stir, cover and chill. The mixture will continue to thicken and become more tangy. You can keep it up to about 2 weeks in the refrigerator. If you don't need so much, feel free to divide the recipe and only make a half batch.
